

Responding in a calm considered manner to any given situation is always more productive and affective than reactionary responses.

Competent professionals to deal with complex young people is something everyone aspires for in the education and social services. ALI can equip staff with an affective and pertinent tool kit that allows them to deal with a multiple of situations displaying understanding, professionalism and a considered approach.

- Having the skills to deal with confrontational situations gives the confidence to avoid them.
- Reading early signals of distress gives the ability to prevent them developing further.
- Promoting coping skills helps to find a better way for the future.

All aspects that can be delivered on the training sessions offered by **Aiding Learning & Instruction**. As an experienced practitioner and trainer of over 20 years I have a wealth of knowledge in techniques to deal with challenging behaviours, I offer bespoke training days using the TEAM TEACH training package.

- Seeing behaviour as a language.
- Understanding what we bring to a situation.
- Developing de-escalation skills
- Preventing challenging situation

Are all part of the TEAM TEACH ethos, an international training provider of over 20 years
